DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2, 6, 9-11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Porsche.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 3-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Porsche in view of Russian Document 884624.

It would have been obvious to one of ordinary skill to provide in Porsche fabric securement via a compression lace and slot as taught by Russian Document 884624 in order to hide the edge of the fabric in a removable manner.

7. Claims 7-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Porsche.

The examiner takes official notice that such mechanical elements are well known in the art and obvious to use in this environment and thus not the proper subject for a patentable distinction.

Applicant may challenge, for the official record, this statement of judicial notice in timely manner in response to this office action by specifying, along with a clear statement that applicant traverses this subject matter, the claim number and the subject matter. Applicant is reminded of the duty of disclosure in Rule 56 in this regard.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Trenkler shows another removable soft top and Henderson shows a roll bar top.
